

Corporate Services

A pragmatic approach

- Corporate services for Cayman Islands and British Virgin Islands entities
- Replacement of existing providers unable to deal with difficult situations

Our corporate services offering complements the active role our independent professionals play in numerous scenarios of disputes, impending litigation and difficulties for investment funds, corporate vehicles and trusts.

Disputes surrounding the identity of directors and shareholders, conflicting instructions, heightened risk profiles of stakeholders and regulatory issues are circumstances that commonly cause existing corporate service providers to become conflicted, or unwilling to act.

Our team is well positioned to step in and provide registered office and agent facilities, nominee shareholders and corporate secretarial services, in addition to entity formation and reinstatements. We can ensure all statutory obligations including FACTA, CRS and beneficial ownership reporting are undertaken.
